

LIFE IS FOR SHARING.

# CHATBOT PROJECT INTERN

At Deutsche Telekom Services Europe Cz, we are searching for a talented IT intern, who wants to test his/her skills on something different and more exciting than the usual web app development. Your task will be to work as the main programmer on one of our new Chat-bot initiatives. This is a unique opportunity to gain experience in an innovative environment within the biggest telecommunications provider in Europe.

## What you will do:

- Lead the implementation of our internal chat-bot solution
- Work in Dialogflow platform
- Integrate the Chat-bot into Deutsche Telekom systems
- Cooperate with the Project manager from the business side
- Run technical and user-acceptance testing of the tool together with end users

## What will you bring:

- IT student/fresh graduate
- Experience with Natural language processing, Machine learning or Chat-bot development frameworks (Google Dialog flow preferred)
- Experience with connecting systems through APIs (Experience with HTTP requests, Webhooks, JSON preferred)
- Experience with server-side web application programming/scripting (JavaScript & Node.js is preferred)
- Ideally having experience or having created a chatbot on any platform

## What we offer you;

- Paid Internship in an international environment
- Company Mobile phone and laptop
- Sodexo Card: meal vouchers in the amount of 100 CZK per working day
- A bunch of benefits (Cafeteria Plan, Multisport Card, Makro Card, T-Mobile vouchers for you and your friends)
- Access to our Learning Hub (Certifications, E-trainings, Projects)
- Career and personal development
- Company events (Brunches, Game Night, Health Day, Summer and Xmas parties)
- Health Offer (Massages, Stretching, Yoga, Football, Marathons)
- Refreshment in the office (water, coffee and fruits available for free)
